Moving Stormwater Pollution Improvements To the Next Level

***2017 Annual Public Hearing sponsored by
The New Jersey Clean Water Council***

Thursday, October 19, 2017, 1:00 pm-4:00 pm
New Jersey Department of Environmental Protection
Public Hearing Room
401 East State Street, Trenton, New Jersey 08625

PURPOSE OF THE HEARING

The U.S. Environmental Protection Agency (USEPA) has identified non-point source (NPS) pollution as the nation's largest water quality problem, causing impairment of approximately 40% of surveyed rivers, lakes and estuaries in the Country.

The New Jersey Clean Water Council (NJCWC) plans to seek public testimony on practices and approaches to address NPS stormwater pollution in impaired waterways. The NJCWC would be very interested in hearing your recommendations for reducing non-point sources of pollution and improving impaired watersheds.

WHO SHOULD ATTEND?

Municipal and county officials, environmental/watershed groups, agricultural community, consulting scientists and engineers

A formal notice for the hearing with additional information will follow.
