

Elevating the Conversation on Water Infrastructure

1. **Spread the Word.** Elevate the discussion around water infrastructure and water policy and their effect on you, your friends, family, and/or your business through social media. Use the sample social media posts below:

- Three recommendations to solve New Jersey's water infrastructure crisis. Read more about the solutions. JerseyWaterWorks.org/WaterTransformed
- What is going on with New Jersey's water infrastructure? JerseyWaterWorks.org/WaterTransformed offers an in-depth understanding.
- Is anybody working to improve the condition of New Jersey's water infrastructure? The answer is YES. Check out this action agenda: JerseyWaterWorks.org/WaterTransformed

2. **Host an Event.** Don't let the release of this report be the end of the conversation - make it the beginning. If you have an event or important date in your area, use it to start a conversation. Jersey Water Works members and staff are happy to help you identify speakers based on the research within [*Our Water Transformed: An Action Agenda for New Jersey's Water Infrastructure*](#).

3. **Engage Local, State, or National Policy Leaders.** Invite city council members, mayors, state legislators, or members of Congress to address your group or to participate in a session discussing the policy solutions offered in [*Our Water Transformed: An Action Agenda for New Jersey's Water Infrastructure*](#).

4. **Join the Collaborative.** [Become a member](#) to add your voice, perspective and expertise to committee communications and work plans.
