Adequate Funding for Capital Investments
The Joint Legislative Task Force On Drinking Water Infrastructure

Final Report
January 2018
America’s Water Infrastructure Act of 2018

"This bill contains critical and much-needed investments in our nation’s water infrastructure and ecosystems. It will help protect communities in New Jersey and across the country from flooding and extreme weather while rebuilding our aging drinking water and wastewater infrastructure, especially in vulnerable communities that need it the most.” - Sen. Cory Booker

JOIN THE COLLABORATIVE!

Jersey Water Works welcomes all interested individuals and organizations that commit to supporting and advancing the shared purpose and goals. Members are invited to join any of the collaborative’s four committees. As a member, you are able to:

- **Participate**: in JWW’s work and join our committees
- **Receive**: a bi-weekly email with updates, funding opportunities, news and resources
- **Communicate**: with other members via the communications portal, where you can also access member updates and resources
- **Be Featured**: in the bi-monthly Jersey Water Works blog, website and monthly e-newsletter

**Ready to join?** Fill out this form, detach the page, and return it to backbone staff or email Brian Caycho at bcaycho@njfuture.org.

Organization: _______________________

Title: ______________________________

Email: ______________________________

Phone: ______________________________

Committees of Interest

If you are interested in participating on a committee, please indicate below which one(s) you’d like to join. You will be added to each selected committee’s email listserve and online communications portal to access its communications and resources and to receive invitations for upcoming meetings.

- Asset Management and Finance
- Education and Outreach
- Green Infrastructure
- Combined Sewer Overflow

By submitting this membership agreement form, you agree to:

1. **Support** the shared purpose and goals, either as an individual or as a representative of an organization
2. **Champion** those Jersey Water Works activities, including best practices, policy initiatives and awareness-raising efforts, that align with your organization’s or your individual mission and values
3. **Implement** and/or support water infrastructure solutions in your organization or community
