If you were developing guidance on options for drinking water and wastewater systems that are interested in exploring shared services, cooperative procurement, or regionalization, what would it look like?

1. **What issues** do you think the guidance should address?
2. **What questions** do you have about shared services and regionalization?
3. **What best practices** should Jersey Water Works consider sharing?
4. Are there **case studies** in NJ or elsewhere that would be helpful to share?
5. **What suggestions** do you have **for communicating** with residents and businesses, municipal
